Attorney Docket No. 511582000100

: DECISION ON APPLICATION
: FOR PATENT TERM ADJUSTMENT
:

This is in response to the APPLICATION FOR PATENT TERM ADJUSTMENT UNDER 37 CFR 1.705 filed December 15, 2008. Applicant requests that the determination of patent term adjustment be increased by 692 days from 606 days to 1298 days. This request is based in part on the Office taking in excess of three years to issue the patent.

To the extent that this application for patent term adjustment requests reconsideration of the patent term adjustment as it relates to the Office's failure to issue the patent within 3 years of the filing date, a decision is being **held in abeyance** until after the actual patent date. Knowledge of the actual date the patent issues is ordinarily required to calculate the amount, if any, of additional patent term patentee is entitled to for Office failure to issue the patent within 3 years. See § 1.703(b). It is noted that at the time of this decision, the patent has not issued.

Applicants are given **TWO (2) MONTHS** from the issue date of the patent to file a written request for reconsideration of the patent term adjustment for Office failure to issue the patent within 3 years. A copy of this decision should accompany the request. Applicants may seek such consideration without payment of an additional fee. However, as to all other bases for seeking reconsideration of the patent term adjustment indicated in the patent, all requirements of § 1.705(d) must be met. Requests for reconsideration on other bases must be timely filed and must include payment of the required fee.

With respect to the over 3 year calculation, rather than file the request for reconsideration of Patent Term Adjustment at the time of the mailing of the notice of allowance, applicants are advised that they may wait until the time of the issuance of the patent and file a request for reconsideration of the patent term pursuant to 37 CFR 1.705(d). The USPTO notes that it does not calculate the amount of time earned pursuant to 37 CFR 1.702(b) until the time of the issuance of the patent and accordingly, the Office will consider any request for reconsideration of the patent term adjustment due to an error in the calculation of 37 CFR 1.702(b) to be timely if the request for reconsideration is filed within two months of the issuance of the patent.

To the extent that applicant otherwise requests correction of the patent term adjustment at the time of the mailing of the Notice of Allowance, the application for patent term adjustment is GRANTED.

The Office has updated the PALM screen to reflect that the correct Patent Term Adjustment (PTA) determination at the time of the mailing of the Notice of Allowance is six hundred nineteen (**619**) days. A copy of the updated PALM screen, showing the correct determination, is enclosed.

On September 15, 2008, the Office mailed the Determination of Patent Term Adjustment under 35 U.S.C. 154(b) in the above-identified application. The Notice stated that the patent term adjustment to date is 606 days. The instant application for patent term adjustment was timely filed¹ on or before payment of the issue fee.

With respect to the patent term adjustment at the time of the mailing of the notice of allowance, applicants acknowledge the period of adjustment of 813 days for Office delay and the periods of reduction of 14, 87, 36, 70 and 9 days for applicant delay (in association with the responses filed March 21, 2008, August 7, 2007, November 3, 2006, October 13, 2005 and March 24, 2005).

Applicants dispute the entry of a period of reduction of 61 days for applicant's response to the Notice to File Missing Parts mailed January 10, 2002. Applicants argue that the response was filed May 28, 2002 and calculate Applicant delay at 48 days, but the Office incorrectly indicates the response was filed June 10, 2002 and incorrectly calculates 61 days of applicants' delay. Applicants assert that the correct number of days of delay is 48 in accordance with 35 USC 154(b)(2)(C)(ii) and 37 CFR 1.704(b). Thirteen (13) days are at issue.

The reduction of 61 days has been found to be incorrect. A review of the application file reveals that, as stated by applicants, their response to the Notice to File Missing Parts of Application mailed January 10, 2002, is of record in the application with a date of receipt by the Office of May 28, 2002. Furthermore, the response, an executed declaration pursuant to 37 CFR 1.63 and fee for late filing, substitute specification and two month extension of time request constituted a complete reply to the Notice. Thus, the Office should not have entered the date that the instant application was complete as June 10, 2002 or assessed applicants a delay of sixty-one (61) days. The period of reduction of 61 days is being removed and a period of reduction of forty-eight (48) days is being entered.

In view thereof, the correct patent term adjustment at the time of the mailing of the notice of allowance is six hundred nineteen (619) days.

¹ PALM records indicate that the issue fee was paid on December 15, 2008.

Applicants also note that a Supplemental Information Disclosure Statement was filed on November 10, 2008 and that the Patent Term Adjustment should be reduced by an additional 120 days of applicants' delay, in accordance with 37 CFR 1.704(c)(10).

As acknowledged by applicants, this disclosure is premature. The revised patent term adjustment indicated on the patent will include any periods of reduction (or adjustment) accrued after the mailing of the notice of allowance on September 15, 2008.

The Office acknowledges submission of the \$200.00 fee set forth in 37 CFR 1.18(e). No additional fees are required.

The application is being forwarded to the Office of Data Management for issuance of the patent. The patent term adjustment indicated on the patent (as shown on the Issue Notification mailed about three weeks prior to patent issuance) will include any additional adjustment accrued both for Office delay in issuing the patent more than four months after payment of the issue fee and satisfaction of all outstanding requirements, and for the Office taking in excess of three years to issue the patent (to the extent that the three-year period does not overlap with periods already accorded).

Telephone inquiries specific to this decision should be directed to Senior Petitions Attorney Patricia Faison-Ball at (571) 272-3212.
